

### **Datta Medal and Award**

The Datta Medal is awarded for outstanding achievements in the field of Biochemistry and Molecular Biology or related sciences. The award is endowed by the Federation of European Biochemical Societies (FEBS) and is named after S. Prakash Datta, the first Managing Editor of FEBS Letters (1968–1985) and Treasurer of FEBS. The awardee, who should normally be from a FEBS country, receives a silver medal and normally presents a plenary lecture at the FEBS Congress that year. In 2016, the Datta Medal was awarded to Anthony Turner (Linköping, Sweden).
